PROFESSIONAL SUMMARY

Computer Science student at Full Sail University with experience developing object-oriented applications using C++. Experienced with problem-solving, debugging, Git version control, and iterative software development. U.S. Army Sergeant with five years of experience as an Apache helicopter mechanic, bringing leadership, teamwork, attention to detail, and technical troubleshooting experience to software development. Seeking opportunities to continue developing technical skills in software and game development.

TECHNICAL SKILLS

Programming Languages: C++, HTML, CSS

Software & Tools: Visual Studio, Git, GitHub, Microsoft Office

Technical Concepts: Object-Oriented Programming, Classes & Objects, Functions, Loops, Input Validation, Debugging, Version Control, Branches, Pull Requests

TECHNICAL EXPERIENCE

Restaurant Management System | C++ Course Project

- Developed a C++ console application that simulates restaurant operations using object-oriented programming.
- Implemented multiple classes to organize customer, ordering, inventory, and restaurant management systems.
- Developed customer queues, orders, patience and satisfaction systems, inventory management, and restaurant finances.
- Implemented input validation and debugging techniques to improve program reliability.
- Created a day and time system with restaurant opening, closing, lunch, and dinner periods.
- Used Git and GitHub for version control through commits, branches, and pull requests.
- Tested, debugged, and refined the application through iterative development.

- Created technical documentation and project demonstrations to communicate development progress.

PROJECTS

Restaurant Management System

Developed a C++ console application designed to simulate the management of a restaurant. The application combines customer management, ordering, inventory, finances, and a simulated workday into an object-oriented system. The project was expanded throughout development as new features were implemented, tested, and refined.

Technologies: C++, Visual Studio, Git, GitHub

EDUCATION

Full Sail University

Bachelor of Science in Computer Science

Expected Graduation: Add Month and Year

Relevant Coursework:

- Programming Fundamentals
- Object-Oriented Programming
- Software Development
- Version Control

EXPERIENCE

United States Army

Sergeant | AH-64 Apache Helicopter Mechanic

5 Years of Service

- Performed maintenance, inspection, troubleshooting, and repair of AH-64 Apache helicopter systems in a highly technical environment.
- Led and supported soldiers during maintenance operations and mission requirements.

- Applied technical documentation and troubleshooting procedures to identify and resolve mechanical problems.
- Worked as part of a team in environments requiring communication, accountability, and attention to detail.
- Developed leadership, problem-solving, and time-management skills while balancing personnel and mission requirements.

CERTIFICATIONS

Add relevant certifications as completed.
